

PHANTOM MASK INITIATION

Tonite, as a representative of Phantom Mask, I take this opportunity to welcome you as new members. You have shown, by your past work, an interest in the things we co-operatively pursue. You have shown, through your past work, talent in the field of radio drama.

Our primary aim and ideal is to further universal achievement in broadcast drama. As individuals, we can, of course, work to gain knowledge and experience. But it is true that in union there is strength, and we feel that by banding together we can best achieve our purposes.

As members of Phantom Mask, you are expected to devote both time and energy toward keeping it a living, active, efficient organization. You are expected to attend all meetings, and participate in all projects. You are expected to keep abreast of all dramatic activities at WNAD, and to keep within the circle of your radio horizon some knowledge of the endeavor of other groups similar to ours.

Above all, you must keep working and do your best to raise the standards of radio drama by direct participation insofar as possible.

Before you, you see the light of united effort for Phantom Mask. On the table you will find candles which represent your own contribution to radio drama. As you light your small candle at the flame of Phantom Mask, you receive from it both inspiration and aid for your individual needs. By placing your lighted candle at the base of the larger one, you indicate your willingness and desire to further the aims of Phantom Mask. If you are in accord with our ideals, please light your candle. *then take up your Phantom Mask.* *****

You are now members of Phantom Mask. Congratulations, and we're awfully glad to have you with us.
